

Charge

Board of Scientific Counselors Meeting

Virtual Event
May 4, 2023

Charge:

To evaluate the adequacy of NTP responses to external peer review and/or federal agency comments received during the development of the State of the Science Monograph and the Meta-Analysis Manuscript.*

BSC will not provide independent peer review of the State of the Science Monograph or Meta-Analysis Manuscript.

BSC may offer perspectives and suggest revisions that might improve the quality of either document.

*NTP Staff within the Division of Translational Toxicology, National Institute of Environmental Health Sciences developed the draft State of the Science Monograph and the draft Meta-Analysis Manuscript on behalf of the NTP.
